

HEATRAE SADIA

SMARTER | CLEANER | WARMER

Established over 95 years ago, Heatrae Sadia is the UK's largest manufacturer of electric water heating products, and supplies products worldwide. From the very start it was at the cutting edge of innovation, leading the way with new and clever ways to make electric heating. Heatrae Sadia is now part of Baxi Heating Uk Ltd, which is in turn part of BDR Therma.

Amptec

- ✓ Outputs from 4-12kW
- ✓ Compact and lightweight for ease of installation
- ✓ 99.8% efficient
- ✓ Minimal service and maintenance costs
- ✓ Silent in operation
- ✓ 2 year warranty

Compact and unobtrusive, Amptec works with standard radiators, programmers, circulating pumps, room thermostats and thermostatic radiator valves, to heat radiators and underfloor heating. It is ideal for properties where space is at a premium and can be linked to a hot water cylinder to provide domestic hot water also.

Electromax

Not only does Electromax provide hot water for your wet central heating system, it has an integral hot water storage cylinder to deliver mains pressure hot water to your bath, shower or tap outlets. Electromax is compatible with standard radiators and thermostatic radiator valves and comes with a programmable thermostat.

- ✓ Outputs from 6-9kW
- ✓ 180L capacity unvented cylinder
- ✓ No requirement for annual gas safety certificate
- ✓ Silent in operation
- ✓ Floor mounted design
- ✓ 10 year warranty

ELECTRIC COMBI BOILERS CO.

Electric Boilers Company together with Fiamma have created an innovative solution for providing central heating and hot water. Users can save money on running costs, servicing, repairs, parts and installation. The aim of this venture was to simplify electric boilers and their installation, whilst guaranteeing all users high quality and optimum safety. Elektra boilers come with all components built in and are easy to install and operate. Simply provide flow and return for heating and circuit. Cold water in, hot water out for domestic hot water.

Combi with inbuilt cylinder
