For over four decades, Grant has been designing and manufacturing award-winning oil-fired boilers. Today their range consists of 63 models with each boiler promising to deliver reliable home heating for years to come.

Vortex Range

-  Outputs from 12-70kW
-  48 models available
-  Up to 94.5% space heating efficiencies
-  Awarded Which? Best Buy in 2017, 2018 & 2019
-  Reillo low NOx yellow flame burner technology
-  Up to 5 year guarantee*

The extensive Vortex range consists of internal, external, boiler house, combi and wall hung models. Incredibly efficient and incorporating the latest low NOx burner technology. The diverse range delivers flexibility when it comes to installation. From slimline models through to durable powder-coated external variants, this oil range provides choice, enabling you to select the solution to best suit your needs.

Vortex Blue Range

The Vortex Blue range cleverly combines ultra-low NOx burner technology with the familiar features of a Grant Vortex condensing boiler. The range includes internal and external heat only and combi models, with system variants also available. Incorporating the latest blue flame burner alongside Grant's patented heat exchanger, this range delivers cleaner home heating whilst still achieving excellent efficiencies.

-  Outputs from 15-36kW
-  15 models available
-  Up to 94.5% space heating efficiencies
-  Awarded Which? Best Buy in 2017, 2018 & 2019
-  Reillo RDB BLU blue flame burner technology
-  Up to 10 year guarantee*

*when installed by a G1 installer

We can also supply and fit bunded oil tanks, oil lines and ultrasonic oil level detectors.
