

# ecoFIT pure

System boiler

 **Vaillant** Comfort for your home

# System boiler

Best suited for:

## What are the advantages?

-  **Constant hot water**
-  **Quick installation**  
No need for a loft tank
-  **Energy efficient**  
reduce your carbon footprint and save money on your fuel bill
-  **Prevents frost damage**
-  **Designed for a peaceful home with Quiet Mark**
-  **Choice of app controls**

## What is a system boiler

System boilers need a cylinder to store hot water, but system components are built into the boiler itself, so there is no need for a cold water feed and expansion tank in the loft. System boilers can give a constant supply of hot water to a number of taps at the same time. With no need for a loft tank, system boilers free up space and eliminate worries about leaks or frost damage. They can also work with solar water heating systems and heat pumps, making a great entry into renewable heating solutions.

## Key features

- ErP A rated boiler with up to 94% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Highest quality aluminium heat exchanger which is designed for long life and easy maintenance
- Compact, with the option to fit a rear flue; the ecoFIT pure is ideal for a kitchen cupboard fit solution
- Five system models covering 12, 15, 18, 25 or 30kW heating outputs
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoFIT pure is awarded the Quiet Mark for its reduced noise
- Simple and easy-to-use built-in control panel
- Compatible with Vaillant's vSMART™ app based control for heating on the go

## ecoFIT pure

High efficiency system boiler range

The ecoFIT pure system boiler is available in a range of power outputs to meet the heating requirement of every home.

All ecoFIT pure boilers offer low energy consumption and premium components to give outstanding performance.

Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

The ecoFIT range has a compact and lightweight design to ensure it can easily fit inside a traditional kitchen cupboard.

### Dimensions and Outputs

Model	612/615/618/625/630
Output	12W/15kW/18kW/25kW/30kW
Boiler height (mm)	700
Boiler width (mm)	390
Boiler depth (mm)	295

\*Up to 7 years when installed by a registered Vaillant Advance Partner
